ILION CLASS OF 1910

Restoration of the Class of 1910 Thompson Studio Portrait

It was a really nice surprise to be contacted by Vicki (Hanrahan) Ainslie offering to share a wonderfully restored Thompson Studio Photograph of the Ilion Class of 1910. The [1910 Class Photo](#) image and the story of its restoration is the feature story for this month. Visit the page to get the link to download a high resolution image.

Class - Newspaper Graduation Articles - A New Feature

A new and growing collection of [Newspaper Articles by Class Year](#) was recently added. This section will contain the names of class graduates that appeared in newspapers. The articles are slowly being discovered and added to the alumni site. An effort is being made to find articles that list all of the graduates and the honors/awards they received. This will assist those that are searching the site for particular names and may assist those doing family genealogy searches. In addition, other newspaper articles specific to class years are also being added. Check back often to see if your class year has been added and what new stories you can find.

The newspaper stories for the Class of 1910 were added to augment the addition of the class photo. The [1910 Newspaper Articles](#) are part of the feature story for this month. Once again, a huge thank you goes out to Thomas Tryniski, webmaster of fultonhistory.com, for scanning and preserving these valuable newspaper resources.
