Dear Carol,

Last summer I received a note from you regarding a flower basket I sponsored in Randy's memory. I was pleased to see that you had done the same this year. As part of my Ilion Days volunteer work, I created a web site for the Ilion Days Committee. Out of that web site grew, an Ilion High School Alumni Web Site.

As a member of the Class of 1974, it was easiest for me to create the web pages for our class. I created a page to honor the memory of classmates we have lost. Enclosed is the actual page that includes Randy's senior portrait.

The reason I am writing you is to ask how you would feel if I added a more detailed memorial for Randy. I have included a sample of what that page might look like. If you had any particular information that you would like to share, I would be pleased to incorporate it on an individual home page, honoring Randy's memory.

I included a picture of Randy's quilt piece that I had the opportunity to view, when it was on display at the high school. I was very moved by the quilt and think others would be, as well. Whatever your decision is, I'll will honor it. If you have access to the internet and would like to see the home pages, the URL is:

<http://www.geocities.com/Heartland/Meadows/3642/alumni.index.html>

Very truly yours,

Aileen Sweeney
